

STAINES ABT-5

ADBLUE TRAILER—5,000 LITRES

Our Staines 5,000 ltr Adblue Trailer is ideal for site work, allowing ease and access to fuel 24/7 - Adblue is a non-toxic colourless substance helping to work alongside selective catalytic reduction, and therefore helping you reduce your overall carbon footprint on site.

Our tractor powered adblue pump uses a stainless steel multidirectional hose reeler with a 10m x 16mm delivery hose and hand held nozzle for optimum output. This allows you to refuel from several positions without having to keep moving our trailer. A access platform to the rear allows for overhead refilling of the tank with a sight glass gauge to monitor volume of adblue on board.

TRAILER SPECIFICATION	
Model	ABT-5
Carrying Capacity	5,000 Litres
Hose	10m x 16mm delivery hose & hand held nozzle
Trailer Chassis	150 x 100 x 8mm RHS
